

Lubrication Management for Fleet Maintenance

The absence of a structured lubrication management program invites failures which will result in costly equipment down time and production losses. A structured Lubrication Management System can provide the following benefits:

- Less unscheduled downtime
- Lower maintenance cost
- Extended lubricant life
- Higher equipment reliability
- Increase in production
- Hard dollar savings
- Increase in bottom line profit

One Day Technical Workshop

If you have any of the Following Vehicles, This Training is Must!

- * Backhoes
- * Tractors
- * Container Trucks
- * Cement Trucks
- * 3 ton trucks

Courses Include:

- ◆ Lubrication Fundamentals
- ◆ Lubrication of Diesel Engines
- ◆ Importance of Coolants
- ◆ Introduction to Hydraulics
- ◆ Proper Storage and Handling of Lubricants
- ◆ Introduction to Oil Analysis

Good Lubrication makes Good sense!
